Subject: Fold Tite Stacker quote

David,

I am very happy with the doors I bought from you last year. They work very easily, and look nice with Matching siding to the hangar. So pleased that I would like a quote on another door. We built a new hangar on our field with our airport board, the same size as my hangar. The only change would be the recessed bottom for the pins, as the concrete is already poured. Opening is 39'1" by 10', and we like the Fold-tite Stcker.

Looking forward to your quote.
